Craned Building with Yard

This building may not be the prettiest industrial building in the street however it has to be one of the most functional properties in the Region:

High Bay Workshop of 816m²
(5) tonne - new overhead crane
Lower level Workshop of 726m²
Office and amenities 90m²
Hardstand Yard of 3000m² (approx)

This is one of the few existing industrial buildings which satisfies the external space requirements of larger users in fabrication and/or transport.
