FOR LEASE

2130sqm

The property is constructed of concrete footings, with concrete tilt panel elevations to a height of approx 7 - 8m with an insulated metal deck roof. The property is made up of a street front showroom and first floor office (tenanted) before going back into 3 separate warehouse units which currently have access ways cut in between each unit. The last warehouse is currently being used as a printing factory and as a result has a re-enforced concrete slab up to a 1m thick
