Unique florist business servicing a number of online ordering systems.

Phone enquiries - please quote property ID 16094

We live in a world that continually involves the internet into all of our lives, on a day to day basis. The business receives a large quantity of online flower orders, delivering to happy recipients and covers a substantial area in Victoria.

From all over the world, to the neighbour next door we can now order and have products shipped to their door. And more and more clients are ordering online, every day. This internet driven business represents 90% of its orders received and is future proof.

There are thousands of passing motorists that can clearly see a great display out on the footpath and this new display would generate extra sales.

The vendor is willing to stay on as an employee if needed and will assist in training the new incoming purchaser/s.
