Narooma is not a sight you would ever grow tired of with Montague Island sitting offshore, Gulaga (Mount Dromedary) dominating in the background against the colours of Wagonga Inlet - a multitude of blues.

This region around Narooma has been selected by Tourism Australia that will be promoted to international visitors. Eden is about 90 minutes drive from Narooma. The Port of Eden is in the process of transformation with two major construction projects under way. They are the Eden breakwater Wharf extension project and the Safe Harbour project. Eden is becoming a popular destination with an increasing number of cruise ship stop overs. The Breakwater Wharf extension project will allow cruise ships up to - 325 METRES, to berth at the wharf once completed. Total
