

314 Loongana Road, Nietta TAS 7315

Live the dream!

Peonietta (Peonies from Nietta) is a hugely successful 20 hectare peony farm in Tasmania's pristine high country. It contains approximately 80 to 85,000 plants at varying stages of maturity. It is one of the largest single peony farms in the Southern hemisphere.

Imagine having a money tree that produces 40-80,000 \$10 notes every year with minimal upkeep! Well although peonies aren't trees as such, the plants at Peonietta will continue to produce beautiful, highly sought after flowers for decades to come. In fact some peony plants have been known to continually produce stunning flowers for over a century!

Peonietta already has an excellent established supply chain throughout most major Australian flower markets.

This business would make a great family run business, enabling everyone to earn a very good income in a very short period of time. Alternatively it would be great for a couple who likes to relax or travel
