This industry is bullet proof, and this business has a long history. This manufacturing business is well established and continually growing in sales due to a high quality product and great service. 80% of orders are standard weekly orders that are automatically processed via computer using a Reckon accounting system, and 20% orders are via telephone and then put in the system.

Some full time management will greatly improve the financial rewards of this solid business. In less than 3 years a good operator could pay off this great business and have a long term asset. There are currently 4 full time bakers and 2 packers, and staff start at 2 pm and finish approx 11pm. Working only 6 days a week, and only 1 shift per day. There are cameras in the factory tha
