Hobby shop brings big rewards

Retail

FOR SALE

\$55,000 + SAV

Ten years of experience and association in the model-making industry is up for grabs. As a second-hand licensed dealer, you'll be free to purchase or sell on consignment. Free to export hobby items overseas to Europe, the UK and USA, Japan, Brazil and Chile to name a few. Free to take full advantage of the already established eBay shop Brunel Hobbies Australia. Free to have lots of fun while reaping in the financial rewards from an already established specialist platform!

Is interest in model railways, a wooden ship and plastic kits, diecast aircraft, cars and other vehicles - plus all the accessories that go into the making a prerequisite for purchase? Not necessarily, but this is certainly an opportunity for someone who realises business and pleasure can go hand in hand. And for someone searching for deep pockets too.

\$ 55,000 plus stock evaluation (stock is optional)
