Fish & Chips in a great location.

Phone enquiries - please quote property ID 20048

Having a Fish & Chip shop next to a Safeway will bring you a continuous stream of customers forever. We all know Safeway is busy all the time and the opportunity to take this business and double the takings is real.

More work needs to be done on marketing, social media and a great website is needed - this is vital with any business in today's world.

This is how customers find food they want now !!
