80% of orders are standard weekly orders that are automatically processed via computer using a Reckon accounting system, and 20% orders are via telephone and then put in the system.

Some full time management will greatly improve the financial rewards of this solid business. In less than 3 years a good operator could pay off this great business and have a long term asset.

A new owner managing and growing this business further can utilise the factory and also start a second shift from 6am to 2 pm, either selling more bread products or expand into muffins, small cakes or pa
