Cootamundra Appliance and Refrigeration Service

Phone enquiries - please quote property ID 05189

Services
FOR SALE

Cootamundra Appliance and Refrigeration Service has been in operation for around 15 Years in the township of around 8,000 friendly country people. Competition is very limited in our field.

With a well established repeat local customer base and strong interest from surrounding areas for a repairer who will be prepared to travel, the future looks very bright for the right person or couple to take on this family business.

Current owner prepared to assist with training if required. Refrigeration qualifications would be a great asset but not essential if you just wish to concentrate on non gas related repair work and appliance repair.

We are the approved warranty service agents for many major companies and further opportunity for boosting income lie in retail and installation of major brand products.

Selling due to family health problems and career changes.

The choice is yours, a leisurely effort will provide a comfortable income and hard work would provide an exceptionally good return.
