Soda and abrasive blasting Sydney

Phone enquiries - please quote property ID 12547

Advanced Soda Blasting is a one stop blasting shop. Set up to blast every media possible including soda, garnet, glass bead etc.

Advanced soda blasting is known for blasting of cars, bikes, boats and trailers yet we blast anything and everything.

Advanced soda blasting blasts all types of materials such as: Plastic, steel, fiberglass, aluminum etc

As Advanced soda blasting is located in a heavy industrial area in western Sydney most local engineering business's and smash repairs use our services.

Advanced soda blasting also is involved in restoration/ rebuilding of cars. A panel beater who is employed to do rust repairs and full restoration of vehicles once blasted.

Workshop can be used as a panel beating business along side the blasting as there is space to build a spray painting booth.

Massive work shop 332 m2 with office upstairs 2 x bathrooms and shower facilities.

Equipment on hand:

*Brand new 250-cmf-air compressor with very little working hours.

*Large extraction fan system
