Our shop forms a little business strip by itself with lots of convenient parkings and is surrounded by a bus stop, a church, a school, a postbox, a huge residential area, and a very busy factory area so there is a stable and loyal customer group and the community is very nice and kind.

The business not only fulfills many aspects of its customers' needs but also has great potential in moving forwards. It has a good weekly taking with a long lease. So it is easy to run and will be an excellent choice for your first-timers.
