

, Melbourne VIC 3000

Boutique Professional Engineering Business - Est 1986

This is one of Melbourne's most trusted and respected engineering firms offering a perfect bolt on opportunity.

Established in 1986 with ongoing work, clients, and reputation this business has no website, no social media and does not actively chase work. These traits are simply unheard of in today's market, instead, this business obtains all their work from word of mouth, loyal long-term clients, specialising in schools and institutional buildings, well known for providing high-quality documentation and adhering to timelines.

Operates from an inner Melbourne office of about 130 sqm with conference room facilities, reception, work area and kitchen. The acquisition of this firm can be with, or without the office lease.

Operating with 1 owner, 1 engineer, and 2 draftsmen, there is over \$240,000 of contracted work locked in, with a further \$80,000 of quoted projects.

A generous hand-over period is on offer by the owner who is looking to retire.
