

, Biggera Waters QLD 4216

Established Caravan & Motorhome Service & Supplies | ID: 914

A unique opportunity to acquire one of the best Parts and Servicing businesses in the Motorhome and Caravan industry in QLD is now available.

Definitely one of the best Owner/Operator businesses available on the market today. It has been professionally run by the two (2) owners (husband & wife) for many years and remains an extremely viable business today and into the future.

Successfully operating from their Gold Coast shop front location for over 15 years, and benefiting from their development of one of Australia's largest online e-commerce websites for RV Accessories, it has become a much sort after target by astute investor operators.

The business operates five (5) days per week from a shop, warehouse and service facility of over 200sqm where it has an excellent rent arrangement in place and enjoys local easy access to the entire South East of Queensland via the nearby M1 Motorway.

There is no obligation to be licensed in any specific trade or profession to operate this business other than normal business skills and the desire to succeed. Knowledge of the motorhome and caravan industry would, of course, be an advantage but is not essential.
