Construction - Landscaping - Landscape Design - Melbourne

This is an extraordinary business with everything in place to continue and grow. Minimal skills required, nor any need to 'get your hands dirty', as the work is outsourced. A profitable business with good annual turnover and profits. (Gross averaged around \$800k per annum).

The business is well established and well entrenched in the market. It offers a wide a wide range of services specialising in paving, edging, retaining walls, fencing, stonework, driveways and earthworks.

Other services include excavation, site clean ups, turfing, tree and shrub planting, irrigation systems and construction of pergolas and decking - Business model revolves around a select group of professional subcontractors that can complete a job from start to finish.

This quality Landscape/Landscape Design business caters for both commercial and residential projects ranging from small to large. Some businesses also have repeat business.
