

SCALP MICROPIGMENTATION

, Mitchell ACT 2911

Canberra's leading Scalp Micropigmentation clinic - very profitable, low hours

Phone enquiries - please quote property ID 27348.

Scalp Micropigmentation (or SMP) is a new type of cosmetic tattoo that replicates real hair follicles giving that 'shaved' head look. It's suitable for anyone with male pattern baldness or receding hair, and can also be used to add density to those with longer but thinning hair (including females), as well as scar camouflage.

No experience is necessary as all training is provided. Owner operated and only selling due to move interstate. Vendor finance negotiable.
