Kathleen Berney Fashion is not only a recognised fashion label, designed and made in Australia, it is a fashion statement with a niche market for the baby boomers, plus sizes and travel fashion. Established for over 28 years, this business throughout the turmoils of the fashion industry has stood the test of time.

This sound business is on the market for the first time and offers a solid business in fashion with the opportunity to grow and diversify into other ranges, accessories and services.

Being an E-commerce business, it can be run from anywhere but current operations are from a property on the outskirts of Sydney.
